The Elitist Globalization Control Methodology

1. The Elitists Define a Market
2. They Make the Market look like a threat and create a solution to resolve the threat
3. The Media Creates the threat as a problem in the eyes of the masses
4. The Media Perpetuates the threat until the masses scream for the elitist solution
5. The elitist Solution is perpetrated on the masses
6. The elitists Take the Money and profits
7. Then They, the elitists, Adjust to the reaction of the masses and Do It Again until all of the profit is extracted

Problem Reaction Solution

The New World Order cannot be built unless the global elitists destroy the Old World Order. This means they must dismantle the old capitalist monetary system, re-educate of the pseudo-rich to passively accept their lot while the elitists continue to systematically lower their new sheeple's expectations and social status. As the pseudo rich are trained, they are socialized along with the masses and they all are absorbed into the utopia propaganda which insists that one must comply so that peace and order may be maintained. A constant bombardment of elitist propaganda is blasted into

everyone's minds, thus creating unconscious zombies and drones to carry out the will of the corporations and accept less and less as the corporate profits skyrocket. This is done using social engineering propaganda and public relations groups through the mainstream media to re-educate the masses.

When the time is right and the masses are sufficiently polarized, the propaganda machines injects control strategies into the alternative news media to initially destabilize the foundation of the internet media by discrediting their efforts and eventually injects a disguised, globalist agenda into the internet news to cause confusion and mistrust.

Have you noticed that around the time when president bush left office and president obama entered office, there was a huge amount of money that was extracted from the coffers? This was the change in the corporate guard so the contractors could get paid off. This was when Halliburton pulled its profits out of the coffers and General Electric took over as the new corporate command of the elitists' war machine.

The presidential corporate sponsors, Halliburton Bush and General Electric Obama created smoke screens like bailouts to cover the huge transfer of money made from one corporation to the other which was made from the wars in Iraq and Afghanistan. This model has been used for thousands of years to hoodwink the masses and cover the obscene activities of the power hungry elitists who profit by destroying the infrastructure of targeted countries so they could get the contracts to rebuild what they destroyed. A profitable sideline was to install local leaders that would perpetuate the drugs sales, reconstruction profiteering and arms sales so the rich got richer and the decimated people could do what they have always done, suffer and die. But, if you are a member of the club, like the Skull and Bones , you live like kings.

The only winners of WWII were the corporations.... The rest is illusion.

The American Dream is Just That... A construct to enslave us and con us into believing that we are free, when are actually hypnotized not to see the corporate oppressors.

Part 2

In the 1980s, after the pervious depression, there was a push automate American Industry so we could compete with Japan. Robotics and electronics exploded onto the scene and the world boomed in the sales of electronics. The microcomputer was born and the human landscape evolved beyond paper and pencil to drive a wedge between the computer literate and those who were still afraid of electricity.

Computers, video cameras and video recorders led the way into the internet and the virtual world was born. It was easy to see the difference between computer generated videos and the analog videos until the graphic technology evolved to a more realistic level via the gaming industry. Video simulations became more and more lifelike, so much so that they are now used to train the new zombie army to be the drones of the New World Order.

The virtual worlds offer more reality to our children than the world around them and they opt for the godlike capabilities of creating their own world where they can rule and venture into combat where only the virtual avatar is slain. There is plenty of virtual blood and gore and they are desensitized to accept it as normal..... thus the training process is complete.

These young video heads are recruited into armed services and sent to endless wars as cannon fodder and spent in battle only to return to civilian life as an old man or woman in a child's body. The automation process is done.

Meanwhile, the systematic destabilization of the American way of life is perpetrated upon the masses in subtle madness by discrediting, disrespecting and denigrating religion, the Bill of Rights and the US Constitution. We were trained to believe in and fight these principles while in the background, the financial institutions are being raped, pillaged and plundered by the 13 elitist families who plan to murder 90% of the world population in the name of eugenics and good economics.

These 6 billion people are to be dehumanized and exterminated by the international monetary fund, and the world banking system not by shooting them in the streets but by withholding money so they will starve, poisoning them with industrial waste in the food that they do manage to acquire and polluting the environment with the slag and volatiles of the military industrial complex.

The phony mainstream media propaganda machine programs the people to accept such criminal activities like putting fluoride in your water and insisting that it is good for you while you poison rats in your basement with the same chemicals.

The mainstream media dramavision pumps out false flag events like Wiki leaks obtaining top secret emails that implicate the governments of the world playing woefully immature elementary school antics that nobody cares about and this is passed off as a pacification and creating the illusion that justice is served to the ruling class... who actually planned and produced this mainstream media and internet sensation.

This movement, this socially engineered ploy becomes an unchallenged truth which is used to generate a social undercurrent that is in turn, used to reveal useless, negative information about diplomats, governments, corporations and government officials that said things behind each other's backs.... To generate the main distraction as your jobs are sent overseas, your farms lay fallow, the local official services dwindle and the cost of living increase thus making people choose between paying inflated bills or buying food to survive.

The will of the people is slowly being eroded and dissipated by the growing mistrust of government officials, the frequent increased exposures of their hidden agendas and clandestine activities which allow the industry that once served the communities of our nation to corporatize the world and sell us like cattle.

The current demonstrations by Occupy Wall Street are the very tool which is being used to collapse the economy and shut down the internet. This initial tactics is used to isolate an enemy and cut them off

from their supply lines. This tactic is the staging for military intervention and the installation of martial law in the major population centers in the USA and it is being done in the open.

Egypt was scripted by the CIA to remove the old CEO and take him out of the equations so the military would be in charge of the country for the next set of wars. They are creating Armageddon as a Mainstream media Event and will victimize the people of the world to justify the massive population reduction in the name of Global Warming or Climate Change.

The concentration camps will be the cities now instead of the barbed wire enclosed compounds that quietly kill millions of people and burn them just out of sight of the shopping mall. Maybe you will wonder why there is dust settling on your car and discoloring the paint... or will you secretly know that the dust was once your neighbor who disappeared one night and no one ever heard from him again....

The jobs are gone and they are not coming back people. You have been made an outlaw.

Part 3

It is my suspicion that groups like Anonymous, the "Occupy" protestors are being staged and used by the elitists and the media to create the illusion unrest, descent and action for political change so a tipping point is reached and pawned off as the catalyst for revolutionary change thus duping the nation into believing that something is being done for the people, when in fact nothing will change.

Tunisia and Egypt were manipulated events that were all over the media and the internet and seen as peaceful actions getting results for positive change. Libya is the opposite showing the resolve of those who would replace the rulers who refuse to go along to get along. These "revolutions" are the examples to the other governments of the world saying, "You can be replaced in a peaceful coup or a violent coup". The results will be the same, the elitists will change the face of the governments, install holier than thou rulers and still plunder the nations, as usual.... Just business as usual with new faces and new, do- nothing, governments for the people to see.

Mainstream Media will applaud the positive changes toward global democracy and the triumph of the people while the people starve in the streets or aid camps built by the new and better governments to protect and care for the people. Internet Media will also support the fantastic changes for the people promoting the unification of the human effort to forge victory via the alternative news who exposed the plots and sparked the revolution to free humanity.

The velvet chain made of video games, media and pseudoscience provide the smoke and mirrors to sustain the illusion of well being so at a level just high enough to stimulate the pleasure centers and keep the masses building their own prisons. The highest IQs and the Dregs are now equal because humans are all worthless to the new way of the world. Humans are expendable.

Check the [Georgia Guide Stones](#) and take note of where you stand.

The dismantling of our country has been expedited and is evidenced by ;

1. Systematic Discrediting the American way of life
2. Constant bombardment of the masses by mainstream media that US Government Officials as incompetent, unaccountable and above the law
3. The leak of Top Secret Emails, Financial Bailouts, Wall Street manipulation, gold and silver panic,
4. Setting Up The American Media and Internet Media to cover
 - a. Drills
 - b. False Flag Events
 - c. Conditioning the masses to accept the same fate as Europe
 - d. Doom and Gloom, Elenin, End of the world
 - e. Terrorism
 - f. Fake Deaths
 - g. Global warming
 - h. Occupy Wall Street
 - i. End The Fed

This is all happening now and is pointed toward a catastrophic event of such magnitude that will demand that the masses beg for the elitists to impose their rule of the new world order.

Our major cities are hosts to staged protests, that used people who are genuine and patriotic that are unwittingly used as pawns in the fabrication of conditions needed to impose martial law. These major population centers of America are the new camps. The virtual barbed wire is created by the computer

generated graphics which connects the masses directly to the control grid and disconnect them from the real world. These are the velvet chains of the new slavery.

Everyone must become aware that the mainstream media and alternative media are currently being used by the elitists to create the perception of a people making positive changes and overcoming the greed driven governments of oppression and inhumanity. These tactics of distraction and re-direction are classic divide and conquer programs. The duality, left-right paradigm to is used to hide the power of the individual human being and continue the ignorance of humanity.

The elitist are counting upon crushing the old style capitalism to either plunge America into a state of mind where debt, depression and oppression control the masses for totalitarian rule by the corporate controlled military industrial complex or the full scale armed revolution that will justify the imposition of martial law which means the invasion by UN troops and Foreign entities to control America. Our country has been financially weakened by the loss of over 6.4 million jobs and therefore appears to be a juicy morsel for corporate raiding and selling off our assets.

As the 6.4 million jobs left America, the American consumer was replaced by the vast population of China and India who is being trained as the new consumer engine of the global markets for the latest version of The New World Order.

The New World Order IS the peaceful protests in Egypt, Tunisia and Now America. Throwing out the Old Guard by popular demand and replacing them with military rule which is used to keep the underbelly arms and drug markets open for business... so the cartels can operate freely.

IS this the America You Want To Live In? I sure as hell don't!

Take the profit out of government and the criminals will not want to be there.
